*Made in Ajax:* The Official Culinary Guide is an initiative we've all been excited about since the project was approved by Council in February 2025. The reason is simple – food is universal. Food brings people together. And Ajax is the perfect place to discover new dishes and flavours.

Ajax is a dynamic community enriched by cultures from around the world, and this diversity is beautifully reflected in the variety of restaurants, cafés, and eateries throughout our town. From traditional family recipes passed down through generations to innovative fusion dishes crafted by talented chefs, Ajax offers a rich tapestry of flavours waiting to be explored.

A world of vibrant and exciting dining experiences awaits you just beyond these pages. Circle your favourite restaurants so you can easily find them later. Highlight the ones you haven't tried yet, but want to! Listings are thoughtfully categorized to help readers choose based on what they're in the mood for.

We're grateful for the connections made and the business relationships strengthened throughout the creation of *Made in Ajax*. Sincere thanks to the restauranteurs who completed surveys, participated in photoshoots, and generously shared their stories.

To all the owners, chefs, cooks, culinary artists, and restaurant industry workers of Ajax, thank you. Your passion and dedication help make our town a welcoming and enjoyable place to dine, live and work.

So, the next time you're wondering where to eat, feast your eyes on *Made in Ajax: The Official Culinary Guide!*

# Family at the Core: *The Cryin' Ryan's Way*

“My mom and grandmother’s cooking inspired me to start Cryin’ Ryan’s. I run it with my family and friends. I want customers to feel like it’s a living room and a good environment for families.

We take an elevated approach with our sandwiches: all our sauces are homemade, and a lot of our meats are slow cooked for 10 hours to give a nice, tender meat.

Our most popular sandwich is the Hot Roast Beef. My personal favourite is the Brooklyn sandwich, named after my daughter. The Riott is named after my son, too – it’s the sandwich with no rules!

- Ryan Cambell, Founder of Cryin' Ryan's

# From Bedtime Tales to Business: *The Origins of Pizzeria Isabella*

“When we lived in LA, Chef Ressel worked long hours; we were lucky if he was home by 9 p.m. Isabella adores her dad, so she wouldn't sleep until he was home. He's not the best bedtime storyteller, so he would tell her about her pizzeria – 'Isabella's Ristorante,' or her gelato shop. We were trying to find ways for Chef to spend more time with Isabella. We've been in Pickering Village for 20 years now, so we thought, nothing better than opening up a restaurant close to home. When it came time to naming the restaurant, she said, 'Well Daddy, you said you're gonna have a pizzeria named after me!'”

# More Than a Restaurant: *Hunters Spot's Gift to Ajax*

“We immigrated to Canada about ten years ago and became citizens around three years back. We noticed that in Ajax and Durham, there weren't many restaurants offering fusion food. We all had experience making good food and providing great service, so we decided to go for it.

We brought our own recipes and expertise with us, and that's what this restaurant is all about – sharing our family's

food and traditions with the community. We've taken part in many events, including International Women's Day and local youth festivals. We're always looking for ways to give back to the community. The people here are incredibly friendly, welcoming and supportive, which makes Ajax a wonderful place to run a business.”

A photograph of a dining table with various dishes, a glass of red wine, and silverware. The table is dark, and the dishes are on white plates. In the foreground, a square white plate holds a meal consisting of white rice, several skewers of grilled meat, and a variety of vegetables including broccoli, cauliflower, and carrots. To the left of this plate is a small white circular plate with a silver fork and knife. To the right is another silver fork and knife. In the background, a round white plate contains a large piece of bread, possibly a flatbread, and some other food items. A glass of red wine is positioned in the center of the table. The overall atmosphere is elegant and sophisticated.

# The Edge Lounge: *Where Food Meets Rhythm*

“The Edge is unique for its live entertainment and dancing—we have four days a week of amazing live music, featuring some of the top bands. It's really different from your regular restaurant—in atmosphere, culture, and a mature, older lifestyle.

We hope people come out for dinner and to enjoy good food. My favourite dish is the soup, but the nachos are amazing, as well as the steaks and half-pound burgers. Everything is homemade.

Where else can you go to have great entertainment, drinks, good food, and hang out with your buddies? There's no place like this in Ajax.”

# Baking With Purpose: *Cakes & Co.'s Most Rewarding Projects*

“When we started this business, I was actually diagnosed with breast cancer, and it was a huge hurdle. If it weren't for my co-founder Kelly and our awesome employees, I don't know how we would have managed to make it through.

We're sugar angels, which means we occasionally create cakes for a company called Icing Smiles, which grants Make-A-Wish children their dream cake. Whenever the call has come throughout the years, we've always made them really cool cakes.

This business means everything to me, and I didn't want my sickness to get in the way. I'm amazing now, and I feel better than ever. And helping those organizations and charities in the community is the most rewarding thing.”

# Seafood Without Borders: *Captain Neel's Culinary Calling*

I had been roaming from India to the U.K., Germany to Paris to Italy, then back home to India. I saw all the different kinds of seafood available which can be enjoyed. As such, my restaurant is multicultural – I don't just have Indian or fish & chips or American-style – it's for everyone. Seafood belongs to many different cultures.

I try to make it unique so that people can enjoy different flavours. That's my motive – that they come not just because they're hungry, but for the taste.

After eating the food, if the diners really enjoyed it, they should have a smile on their face. That is the only price tag for me.
